Subj: Shower site survey

Ref: (a) S-4A 1/6 ltr 4/RAD/sch 10110 dtd 5 Jul 1979
(b) Mtg btwn 2dLt Demeyere, S-4A, and Mr. Foil, BMaintDept, on
10 Jul 1979

1. As requested in reference (a), an on-site inspection of subject site was conducted during reference (b). It was concluded that due to the high ground water table and location, a diked area large enough to receive the wastewater would be required. The water must percolate through soil or evaporate as EPA regulations prohibit direct discharge.

2. If additional information is desired, please contact Mr. Julian I. Wooten, Base Maintenance Department, at extensions 5003/2083.

Resources and 2nd Battalion, 8th Marines and
1st Battalion, 8th Marines

1. In accordance with reference (a), it is requested that a
percolation survey be made of the 1002 range area to establish
a power line for this Battalion. The power line will be
temporarily in nature and will operate for 2 hours on 11 July
1971, 12 July and 13 July. Water expenditures per day will
be approximately 9000 gallons. It is requested this survey
be completed by 1500, 10 July 1971.

2. The point of contact is attached to the 1st Battalion, 8th Marines.
